

Keaykolour®

arjowiggins

Products data

Arjowiggins works to continually reduce the environmental impact of paper manufacture.

- All Keaykolour Mills have a certified accredited Environmental management system (ISO 14001).
- Fully FSC™ certified

Keaykolour is the natural choice for covers, luxury packaging, invitations etc.

Fibres sourcing

Keaykolour

This product is made of material from well-managed, FSC™-certified forests and other controlled sources. Virgin fibres are ECF bleached, without using chlorine gas.

Keaykolour 100% Recycled (Camel, Chalk, Particles Moonlight, Particles Snow, Particles Sunshine)
The forest-based material in this paper is 100% recycled. The recycled fibres used come exclusively from post-consumer waste.

The mark of
responsible forestry

Chemicals

- No substances classified as carcinogenic, mutagenic or reprotoxic (CMR) are used as raw materials.
- Chemicals are sourced that have low impact on the environment.
- Arjowiggins complies with the new REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) European regulation created to improve protection of human health and the environment from the risks that can be posed by chemicals as well as the promotion of alternative methods of assessments, and enhancing competitiveness and innovation.

Certified environmental management systems

ISO 9001 (Quality)

Stoneywood certificate no:

TT-COC-002043

Valid until 04-04-2021

Guarro Casas certificate no:

TT-COC-002670

Valid until 11-04-2023

Our transports

Arjowiggins transport policy is eco-responsible, optimising logistics and taking environmental issues into account: minimizing distances between raw material, mills and customers, shifting volumes to rail and sea transport wherever possible.

Our packaging

All of our cardboard and polythene packaging material as well as the pallets are recyclable.
